# Mørsvikvasstinden

♥ Sørfold

**Degree of Difficulty:** Easy, marked path

**Duration:** 2 hours and 30 mins.

**Distance:** 7 km there and back

**Highest point:** 640 m.a.s.l.

**Ascent:** approx. 350 m

**Terrain:** Path and forest trail

**Parking/start:** By Lomtjønna Pond on the E6

If you are arriving from the south on the E6, you can park your car at the car park after passing Lomtjønna pond and completing the ascent to Kråkmofjellet mountain. If you are arriving from the north, the car park is on your left towards the end of a long, straight stretch of road. Follow the marked and signposted path. The summit is visible all the way and there is only a difference of 300 m in altitude from the starting point on the E6, to the top of Mørsvikvasstinden Peak, 640 m.a.s.l. It's easiest to follow the path, but you can also choose your own route to the top. To begin with it is probably best to go a little north of Lomtjønna pond in order to avoid marshes and undergrowth. The easiest way to get to Mørsvikvasstinden Peak is by car or bus on the E6. Catch bus no. 100 direct from Bodø/Fauske, towards Sortland, to south Kråkmofjell. Two daily departures, morning and afternoon. 3 hour trip.
